

**REMARKS**

New claims 69 to 99 are supported throughout the specification and originally filed claims, including, for example, at original claim 46, Table 2, pages 2-8, 2-11, 2-15, 2-26, 2-31, 2-32, and 2-35, and Table 3, pages 3-14, 3-30, 3-40, 3-41, 3-42, and 3-45. New claims 76 to 99 are also supported throughout the specification and originally filed claims, including, for example, at pages 15-16.

Claims 1, 6, 7, 27, 28, 53 and 54 have been amended to specify that the guest is an acid and that the claims are not limited to carboxylic acids. Claim 12 and 32 have been amended to specify that the active agent comprises an amine and that the claims are not limited to secondary and tertiary amines. Claims 47 and 48 have been amended to specify that the counterion is a phosphate or a bromide, respectively. The amendments do not narrow the scope of the claims.

Applicants request allowance of claims 1 to 99. The Examiner is invited to telephone the undersigned to discuss any questions or be of any assistance to the Examiner in the reconsideration and allowance of this case.

Respectfully submitted,

Michael B. Harlin
